Analysed the finances

Approved

Non Uyi Bakery is currently operating at a loss due to high production costs relative to revenue.

saved the analysis · created 4 tasks · decided 10/18, 01:08 PM

At risk

Non Uyi Bakery is currently operating at a loss due to high production costs relative to revenue.

WHAT THE AI FOUND

Negative Profitability. The business is losing 10,333,333 UZS per month, resulting in a negative net margin of 16.9%.

High Cost Structure. Ingredients and salaries represent 71.5% of total expenses, totaling 51,000,000 UZS monthly.

Revenue Concentration. Bread sales account for 77% of total revenue, making the business highly sensitive to fluctuations in bread demand.

WHAT TO DO

1. **Increase bread prices by 10%** — A 10% price increase on bread sales will generate an additional 4,700,000 UZS in monthly revenue, reducing the net loss.
2. **Reduce ingredient waste by 10%** — Improving inventory management or adjusting production forecasts for ingredients can save 2,700,000 UZS monthly.
3. **Renegotiate or optimize utility costs** — Conducting an energy audit or switching to more efficient equipment could realistically trim 10% of utility expenses, saving 633,333 UZS.
4. **Shift focus to higher margin cakes** — Increasing cake sales volume by 20% through targeted marketing could add 2,800,000 UZS in revenue, helping cover fixed costs.

⚠ **You will run out of money in 2 months — by December 2026.**

You lose 10 333 333 UZS a month; cash now 21 000 000 UZS.

Non Uyi Bakery is currently losing 10,333,333 UZS each month, leaving you with only two months of operating cash. Immediate cost control and revenue adjustments are necessary to prevent running out of funds by December.

WHAT TO DO

1. **Increase bread prices by 10%** — Generates an additional 4,700,000 UZS in monthly revenue, reducing monthly burn to 5,633,333 UZS.
2. **Reduce ingredient waste by 15% through stricter inventory management** — Saves approximately 4,050,000 UZS per month in variable costs.
3. **Renegotiate or defer 10% of monthly rent payment** — Improves monthly cash flow by 900,000 UZS.
4. **Optimize delivery routes to cut fuel and logistical costs** — Saves approximately 500,000 UZS in monthly delivery expenses.

Hamkorbank — Kichik biznesga yordam (small business support)

saved the loan choice · created 1 task · decided 10/18, 01:08 PM

HAMKORBANK

Kichik biznesga yordam (small business support)

Amount	Rate	Monthly payment	Total interest
60 000 000 UZS	18–21%	3 083 139 UZS	13 995 337 UZS

Bank page →

Why this one: The Hamkorbank loan offers the lowest interest rate at 18%, resulting in the most manageable monthly payment of 3,083,139 UZS and total interest of 13,995,337 UZS. While current operations show a loss, this financing is intended to improve efficiency, and this option minimizes the debt service burden compared to other banks.

HOW TO APPLY

1. Prepare your business financial statements and the equipment purchase quote.
2. Visit the nearest Hamkorbank branch to present your business plan and collateral details.
3. Submit the formal loan application along with required legal documentation.
4. Undergo the bank's credit risk assessment and property/collateral valuation.
5. Sign the loan agreement upon approval and provide the finalized security collateral.

WATCH OUT

- Since your monthly net is currently negative, you must prove the new equipment will generate sufficient cash flow to cover the 3,083,139 UZS monthly payment.
- You risk losing your collateral asset (property or vehicle) if the business cannot sustain these repayments.

- Interest rates and terms can fluctuate; verify if the 18% is a fixed rate for the full 24 months.

Non Uyi Bakery Business Plan

saved the business plan · decided 10/18, 01:09 PM

Non Uyi Bakery Business Plan

Summary: Non Uyi Bakery is a neighborhood establishment in Chilonzor, Tashkent, providing fresh daily bread and custom cakes. With current monthly revenues of 61,000,000 UZS against expenses of 71,333,333 UZS, the business faces a 16.9% margin deficit. This plan leverages a 60,000,000 UZS loan to optimize operations and reach profitability by September 2027, as projected in our 12-month forecast.

Problem: The bakery currently faces a cash flow gap due to high operating costs and underpriced products relative to current ingredient and utility prices.

Solution: We will implement a 10% price increase on cake orders, initiate a bulk procurement strategy for ingredients to lower variable costs, and expand our B2B delivery service to nearby Chilonzor offices to boost revenue.

Customers: Local residents in Chilonzor district seeking fresh daily bread and local office workers requiring catering services for meetings.

Competition: Local non-branded bread kiosks and supermarkets. Our edge is the combination of high-quality local recipes, consistent daily freshness, and convenient delivery to nearby offices.

Operations: Streamlined morning baking schedule to meet daily demand with minimal waste, utilizing established logistics for delivery to nearby offices.

Team: Owner-managed with local staff for baking and delivery, currently optimizing workflow to manage costs.

MARKETING

- **Direct Sales:** Offering sample tastings to local businesses and office complexes to increase regular lunch order contracts. · 500 000 UZS

MILESTONES

December 2026 — Reduce monthly net loss to 12,226,472 UZS through price adjustments.

September 2027 — Achieve first month of positive net profit of 554,606 UZS.

FUNDING: 60 000 000 UZS

- Working capital for ingredient bulk purchase — 40 000 000 UZS
- Delivery equipment and maintenance — 20 000 000 UZS

RISKS

- **Rising ingredient costs** — Establish long-term contracts with local suppliers to lock in prices.
- **Low adoption of price increases** — Highlight the artisan quality and local sourcing of our ingredients in marketing.
