Analysed the finances

Approved

Yosh Kelajak Foundation is currently unprofitable, with expenses significantly exceeding revenue.

saved the analysis · created 4 tasks · decided 10/20, 03:31 PM

At risk

Yosh Kelajak Foundation is currently unprofitable, with expenses significantly exceeding revenue.

WHAT THE AI FOUND

Negative Net Profit. The business is losing UZS 9,000,000 monthly, with total expenses of UZS 52,000,000 against a revenue of UZS 43,000,000. The margin is -20.9%.

High Fixed Costs. Fixed costs account for UZS 42,666,667, representing 99.2% of the total revenue, making the business very vulnerable to any drop in income.

Reliance on Grant Funding. Grant funding makes up UZS 30,000,000 (69.8%) of the total revenue, indicating a high dependence on a single income source.

Major Cost: Teacher Stipends. Teacher stipends are the largest expense at UZS 28,666,667, accounting for 55.1% of total monthly spending.

WHAT TO DO

1. **Increase Paid Workshops Revenue by 50%** — Increasing paid workshop revenue from UZS 2,000,000 to UZS 3,000,000 would boost total revenue by UZS 1,000,000, reducing the monthly net loss to UZS 8,000,000.
2. **Renegotiate Rent and Classroom Rent by 10%** — A 10% reduction in Rent (UZS 4,666,667) and Classroom rent (UZS 2,333,333) would save UZS 466,667 + UZS 233,333 = UZS 700,000 monthly, decreasing the net loss to UZS 8,300,000.
3. **Optimize Teacher Stipends by 5%** — A 5% reduction in Teacher stipends (UZS 28,666,667) would save UZS 1,433,333 monthly, bringing the net loss down to UZS 7,566,667.
4. **Seek Additional Grant Funding** — Given the current deficit, securing an additional UZS 9,000,000 in grants is necessary to reach break-even. Even a UZS 2,000,000 additional grant would reduce the net loss to UZS 7,000,000.

Checked the cash runway

Approved

Yosh Kelajak Foundation currently has UZS 18,000,000 in cash. With a monthly loss of UZS 9,000,000, the current cash reserves will last for 2 months.

saved the cash forecast · created 4 tasks · decided 10/20, 03:32 PM

⚠ You will run out of money in 2 months — by December 2026.

You lose 9 000 000 UZS a month; cash now 18 000 000 UZS.

Yosh Kelajak Foundation currently has UZS 18,000,000 in cash. With a monthly loss of UZS 9,000,000, the current cash reserves will last for 2 months.

WHAT TO DO

1. **Increase paid workshop revenue by 50%** — Increase monthly revenue by UZS 1,000,000, extending cash by 0.1 months.
2. **Renegotiate teacher stipends by 10%** — Decrease monthly expenses by UZS 2,866,667, extending cash by 0.3 months.
3. **Reduce material costs by 15%** — Decrease monthly expenses by UZS 450,000, extending cash by 0.05 months.
4. **Seek a bridge loan to cover immediate operational costs** — A bridge loan of UZS 9,000,000 would extend cash by 1 month.

Picked a bank loan

Approved

Hamkorbank — Kichik biznesga yordam (small business support)

saved the loan choice · created 1 task · decided 10/20, 03:32 PM

HAMKORBANK

Kichik biznesga yordam (small business support)

Amount	Rate	Monthly payment	Total interest
20 000 000 UZS	18–21%	1 862 275 UZS	2 347 306 UZS

Bank page →

Why this one: The 'Kichik biznesga yordam (small business support)' from Hamkorbank is the best choice due to its lower cost, with a monthly payment of 1,862,275 UZS and a total interest of 2,347,306 UZS over the 12-month period. Although the current monthly net profit is negative, this loan has the lowest payment among the available options.

HOW TO APPLY

1. Prepare business registration documents, financial statements (including grant and donation records), and a business plan.
2. Gather collateral documents for property, vehicle, or guarantor as required.

3. Visit a Hamkorbank branch to discuss the loan terms and submit the application.
4. Undergo a credit assessment by the bank.
5. Sign the loan agreement and collateral documentation if approved.

WATCH OUT

- Your current monthly net income is negative by 9,000,000 UZS. The loan payment adds an additional 1,862,275 UZS to your monthly expenses, making cash flow extremely tight.
- Collateral is required, which means you risk losing the pledged asset if you cannot repay the loan.
- Ensure you have a clear plan to improve your financial situation and cover both operational expenses and loan repayments, as the loan itself will not solve the underlying profitability issue.

Business Plan for Yosh Kelajak Foundation

saved the business plan · decided 10/20, 03:33 PM

Business Plan for Yosh Kelajak Foundation

Summary: Yosh Kelajak Foundation is a nonprofit organization based in Bukhara, providing free after-school coding and financial literacy classes to 120 teenagers. Our mission is to equip the youth of Bukhara with essential 21st-century skills, fostering their future success. While currently operating at a monthly deficit of -9,000,000 UZS, we have a clear strategy to achieve profitability and expand our impact, supported by a Hamkorbank loan of 20,000,000 UZS.

Problem: Many teenagers in Bukhara lack access to quality education in critical areas like coding and financial literacy outside of the traditional school curriculum. This gap hinders their preparedness for higher education and future employment opportunities in an increasingly digital world, perpetuating a cycle of limited economic prospects for their families.

Solution: Yosh Kelajak Foundation addresses this problem by offering free, accessible after-school classes in coding and financial literacy. Our curriculum is designed to be engaging and practical, providing students with tangible skills. We leverage a blended funding model through grants, donations, and corporate workshops to sustain our operations and keep the core program free for students.

Customers: Our primary beneficiaries are teenagers aged 13–18 residing in Bukhara. These are students from various socio-economic backgrounds who are eager to learn and improve their future prospects. Our secondary customers are local and national companies in Uzbekistan seeking to upskill their employees through our paid workshops, indirectly supporting our nonprofit mission.

Competition: In Bukhara, there are limited direct competitors offering free, comprehensive after-school coding and financial literacy programs specifically for teenagers. While some private tutoring centers may offer similar subjects, their fees create a barrier to access. Our edge lies in our nonprofit model, community focus, and the quality of our free programs, which position us as a vital resource for underserved youth. Our corporate workshops also offer a unique value proposition for businesses looking

Operations: Yosh Kelajak Foundation operates from rented classroom facilities in Bukhara. Our current capacity allows us to serve 120 teenagers across various classes. We lease laptops for our coding programs and procure materials for all classes. Our team consists of dedicated teachers who receive stipends. We aim to optimize classroom utilization and renegotiate lease terms to improve cost efficiency.

Team: Currently, the team consists of several dedicated teachers providing instruction in coding and financial literacy. The operational and administrative functions are managed by a core group of volunteers. We plan to formalize leadership roles as the organization grows.

MARKETING

- **Local schools and community centers:** Collaborate with school administrations to promote our programs, conduct informational sessions for parents and students, and distribute flyers. This will increase student enrollment and awareness within the target demographic.
- **Local businesses and corporate networks:** Direct outreach to Bukhara-based companies to promote our paid workshops and secure sponsorships/grants. This will increase our corporate revenue streams and strengthen local partnerships.
- **Social Media (Facebook, Instagram):** Share success stories, class highlights, and testimonials from students and partners. Run targeted campaigns to attract new students and potential donors/corporate clients. Emphasize the positive community impact.

MILESTONES

December 2026 — Achieve a monthly profit of -9,758,942 UZS, improving upon the current deficit of -10,862,275 UZS, by optimizing existing revenue streams and managing expenses.

August 2027 — Attain monthly profitability of 422,108 UZS, signaling a sustainable financial model for the foundation.

October 2027 — Increase overall revenue to 59,522,056 UZS, demonstrating sustained growth in grants, donations, and paid workshops.

FUNDING

- Working Capital — 20 000 000 UZS

RISKS

- **Reliance on Grants and Donations** — Diversify funding by increasing revenue from paid corporate workshops by 20% and exploring new grant opportunities. We will actively engage with local businesses in Bukhara for partnership and sponsorship.

- **Teacher Retention and Quality** — Implement a performance-based stipend increase for teachers, improving retention. Invest in professional development for teachers to maintain high educational standards and ensure their continued engagement.
- **Rising Operational Costs (e.g., Rent, Laptop Lease)** — Negotiate a 10% reduction in classroom rent by exploring long-term lease agreements or alternative venues. Research more cost-effective laptop leasing options or explore donation programs for equipment. This will reduce monthly expenses by approximately 700,000 UZS (466,667 UZS from rent and 233,333
